E. Policy re Filming in the Library
The Board provided its opinion on the draft policy regarding filming in the library. The Board expressed concerns about hot-button issues that can come up when deciding under what circumstances filming in the library will or will not be allowed for commercial purposes and unlike the Courts, the Library does not have the resources to handle the processes that need to be established to allow filming in the library such as providing security after hours and setting criteria for determining what, where, when and who are permitted to film in the library. The Board reiterated its position to prohibit filming in the library because it is not consistent with the law library's core purpose.

F. Library Interior Remodel/Upgrade – Action Items List
The Board reviewed the list of action items provided by the Director for the light remodel and cosmetic upgrade of the library space. President Levine agrees that the library needs to do all the action items on the list such as installing PA system and security video-camera and upgrading the staff and public restrooms to be ADA-compliant. President Levine instructed the Director to start getting bids for these items.
