F. Library Interior Remodel/Upgrade – Action Items List
Victoria met with Marty regarding the list of action items for the library remodel project. Marty identified the items on the list that are maintenance items and construction work items that require permits. The Board was provided with a copy of the updated list of action items, a program map showing the proposed changes to the layout of the library space, and the program budget prepared by Marty of Tilden-Coil.

The Board agrees that the library needs to have an ADA-compliant entrance, to address the electrical, heating and ventilation issues, upgraded computer systems, and additional conference room spaces. Judge Levine stated a need to have a committee to work along with Victoria to get some timelines in place to get the remodeling project going. With respect to the electrical, heating and ventilation, the Library can ask Marty to help and to provide the Board with a flow chart for the various stages of work that needs to be done, such as installing energy-efficient window coverings, ADA-compliant entrance and restrooms, and the timeline for each scope of work.

Judge Levine also stated that we can use the money in the RAM account to purchase artwork and plan for creating a space for the art display and a dedicated wall for “employee of the month” or service recognition for staff.

Judge Levine, Judge Trask and Judge Lucky will be on the committee.

Action Items:
Victoria will ask Marty to prepare a flow chart for the remodeling project including the various stages of work, timelines, and an estimate of soft costs for the project.

Judge Lucky will inquire about movable furniture for the flexible use of the Atrium space.

G. MOU with County to establish parameters of relationship regarding maintenance of library building.
