# Overview

The Riverside County Law Library is the only public law library in the County and serves more than 2.4 million residents. With the current budget of approximately \$2.7 million, the Law Library provides free access to current collection of legal materials, professionally-trained legal information services staff, public education programs, as well as quality continuing legal education classes. The Main library, named after its long-time Board President, the Honorable Victor Miceli, is located in downtown Riverside. The Indio branch is on the first floor of the County Law Building located at 82-995 Highway 111. The Temecula Law Resource Center, a satellite branch with a relatively small print collection and a core collection of electronic legal materials, is located inside the Ronald H. Roberts Temecula City Public Library.

The Riverside County Law Library, unlike the typical public library, receives no income from taxes, special bond issues or local government appropriations. It is primarily funded by a small portion of the County's civil court filing fee. It is a County Special District effectively functioning as an independent public agency organized under the California Business & Professions Code Section 6300 et.seq.. It is governed by a seven-member Board of Trustees composed of community judges and attorneys who serve without compensation. The Riverside County Board of Law LibraryTrustees, through its leadership and strong commitment to public service, makes free and open access to legal information resources, programs and services possible for every citizen in the County.

# **Funding Source**

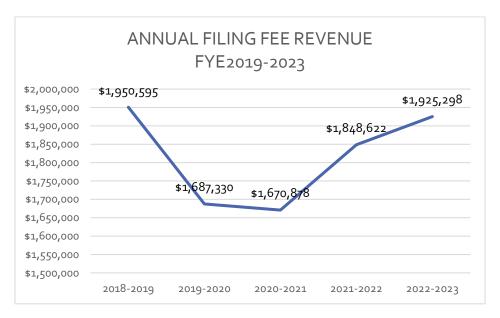

The primary source of funding for California county law libraries comes from a small portion of the county's civil court filing fee. By law, the Administrative Office of the Courts make monthly distributions from superior court filing fees to the law library fund in each county in the amounts described in the California Business & Professions Code §6321 & §6322.1. The amount collected for civil filing fees varies from county to county. In Riverside County, the Law Library receives, in general, \$32 for every civil lawsuit filed. This fiscal year, approximately 87% of the total law library revenue is derived from court civil filing fee.

California county law libraries have been experiencing a decline in their filing fee revenue for several years since 2008-2009 fiscal year. While recent numbers have shown a reduction in the rate of decline for many counties including Riverside, 65% of county law libraries in the state are currently operating at a deficit.

Funding of county law libraries continue to be a major concern in California. The Council of California County Law Librarians, with the help of its lobbyist, continually advocate for legislation to increase the portion of filing fees that fund county law libraries, as well as find alternative sources of funding. Thanks to the tireless advocacy efforts of the Council and the support of State legislators, the 2022-2023 State Budget signed by Governor Newsom included \$7 million one-time General Fund to backfill the County Law Libraries for lost revenue due to the reduction in civil case filings during the COVID19 Pandemic.

In Riverside County, the total revenue collected through filing fees this fiscal year was \$1,925,298. Additionally, it received \$1.1 million State supplemental fund to cover the lost revenue resulting from decreased civil case filings during the COVID -19 pandemic.

Eighty seven percent of the law library's total revenue this fiscal year comes from filing fees and the supplemental funding from the State. The other 13% of revenue are from interest income, rental income, copier income, sales, and library services income. The Victor Miceli Law Library building modernization project that began in the Fall of 2021 consisted mainly of the building's HVAC and electrical systems replacement and upgrade, as well as new paint and carpet for the library portion of the building. Building improvement costs make up 71% of the law library total expenditures in fiscal year 2021-2022. This fiscal year, facilities expenses make up 28% of the law library's total expenditures.

# Mission Statement

To enable everyone in Riverside County to perform the highest level of research and practice through free and open access to the law.

"I want to let the law library's staff and its Board of Directors know how much I appreciate all the work and planning that went into reopening the Law Library. This law library is an important asset for the community and it's wonderful that it has re-opened. The planning turned out a clean and airy facility that is very functional ... Everyone I've met while using the library has been extremely helpful. I've checked out the MCLE materials, and do not have a way to print the written materials from a CD, so the staff has willingly printed out the written materials for me. Because materials have been relocated, they've also pointed me in the right direction to find everything I've wanted. Thank you so much for re-opening an improved law library."

[Letitia Pepper, Library Patron since 1982, November 4, 2022]

## Information Technology

The Law Library is committed to providing cost-effective information technology infrastructure that supports the legal information and research needs of its county residents and enables them to keep up with recent developments in the law, legal research, and practice.

With the implementation of OCLC WMS (WorldShare Management Services) in 2022, the Law Library's print and electronic resources workflows including acquisitions, circulation, discovery, eResource management, and analytic reporting are integrated within a single Web-based interface, with access to WorldCat data and knowledge base and OCLC's latest cataloging tools. It enables staff to easily configure and manage tasks, as well as provide them with all the functionality, flexibility, and a robust platform that will help improve library services, realize cost efficiency, and enhance cooperative collection development, and collaborative approaches to technical services. It provides patrons with a single search that connects them to the Law Library's print, electronic, and digital resources as well as those held by thousands of libraries worldwide.

The Riverside County Law Library hosts six public computer workstations in its downtown Riverside location and six public computer workstations in its Indio branch. The Law Library maintains 12 staff computer workstations and laptops across all branches; 3 servers (1 staff/private, 1 public, 1 remote); and a publicly accessible wireless network in Riverside and Indio locations. All new computers were purchased in fiscal year end of 2021 and a remote server was added to support staff working remotely from home during the COVID-19 pandemic. In fiscal year of 2022, new copiers/printers were purchased for Riverside (3 patron copiers & 2 staff copiers) and Indio (2 patron copiers & 1 staff copier), as well as two new vending card machines and credit card readers to allow for a more efficient handling of sales transactions in both locations. With the new copiers and vending card machines, patrons can easily buy and make copies on their own with minimal assistance from library staff. This fiscal year, the compact shelves were retrofitted with upgraded system controls including state-of-the-art touch-screen controls, photo safety sweeps, aisle entry sensors, and electric motors on all carriages.

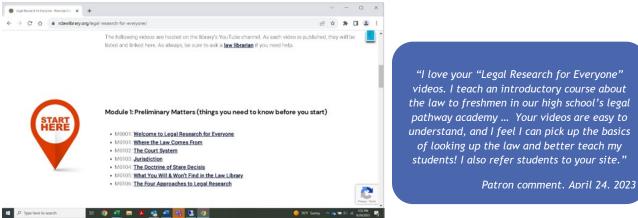

Successfully balancing information technology costs while designing a strategic roadmap for service upgrades and expansions is an integral part of planning for the future. Library user feedback on the law library's information technology resources remains an important part of this process. and allocating funds for information technology infrastructure and support continues to be a key investment point for the Riverside County Law Library.
