Criminal Expungement

What is expungement?

If you were convicted of an infraction, a misdemeanor, or a felony, you can petition for an expungement. An expungement is a dismissal of your conviction. It reopens your criminal case, dismisses and sets aside the conviction, and re-closes the case without a conviction. In effect, you are no longer a convicted person and your record will be changed to reflect that. However, the case itself will still exist, and the expungement will appear on your record. The record will now say “dismissed”, as opposed to “convicted”.

When am I eligible for expungement?

There are various elements involved in determining whether you are eligible for expungement. Some elements include:

- Probation status
- Payment of court fines, fees, restitutions, or reimbursements
- Conviction status (infraction, misdemeanor, felony)
- Sentencing

How do expungements effect employment?

There are a number of considerations included in the referenced website; three are listed here

- *Private employment:* Convictions can make it hard to find employment. After an expungement, you do not need to divulge a dismissed or expunged conviction
- *Obtaining government employment or a government license:* Unlike private employment, when asked if you have ever been convicted, you are legally required to say “YES – CONVICTION DISMISSED”. However, you will be treated as if the conviction was not on your record
